Having the ground floor already constructed, expanding our home further was a challenging task and we are extremely satisfied with the output delivered by Mr.Venu and team ! I thank them especially for being very patient and understanding to every query and feedback of ours and trying to resolve any gaps between us by prompt discussions during every stage of construction!! As we required a Kerala traditional touch to our home, there were multiple additional requirements from our end and we got most of them satisfied considering all constraints! Thanks !
